

## Biot Number 02

Give an expression for the Biot number of a long square cylinder in terms of given variables.

The standard expression for the Biot number is:

$$\text{Bi} = \frac{\alpha L_c}{\lambda_s}$$

The characteristic length in the given situation should be determined.

In this case, the characteristic length is:

$$L_c = \frac{V}{A_s} = \frac{a^2 L}{4aL} = \frac{a}{4}$$

With this finding, the Biot number in the given situation can be expressed as:

$$\text{Bi} = \frac{\alpha a}{4\lambda_s}$$
